

One Stop For All Your Formulation Needs

JRS performance material is a manufacturer and distributor of glassfiber related materials for a wide range of end-use applications. JRS's products include glassfiber tissue, Mesh cloth, Non-woven fabric, silicone fluids, LSR/HCR silicone rubber and other building related products. JRS has the necessary technical expertise to develop and prepare custom materials and solutions to add premier value to our customers.

Competitive Pricing

We provide incredible pricing of a wide selection of materials to meet your needs.

Custom Preparation

In addition to off-the-shelf products, we custom prepare products at varied scales

Strong Technical Expertise

We have more than 25 years of experience in silanes and other silicones.

Wide Product Selections

Looking for materials for adhesives, plastics, inks, rubber, coatings... We've got you covered.

JRS (HangZhou) Performance Material Co, Ltd.

Add: Room 312, 3rd Floor, No. 268 Dagan Road,
Gongshu District, Hangzhou ZHEJIANG PROVINCE, China

核心产品

白色木浆复合水刺无纺布

White wood pulp laminated spunlace non-woven fabric

纺粘木浆水刺无纺布

Spunbonded wood pulp spunlace nonwoven fabric

蓝色木浆复合水刺无纺布

Blue wood pulp laminated spunlace non-woven fabric

白色可降解水刺无纺布

White degradable spunlace non-woven fabric

印花布

Printed spunlace non-woven fabric

珍珠纹布

Pearl pattern non-woven fabric

印刷擦拭布

Printing industrywiping non-woven fabric

医用水刺无纺布

Medical spunlace non-woven fabric

压花六角纹水刺无纺布

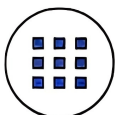

Embossed hexagonal pattern spunlace non-woven fabric

白色木浆复合水刺无纺布

White wood pulp laminated spunlace non-woven fabric

表面柔软, 不伤物件
Soft surface

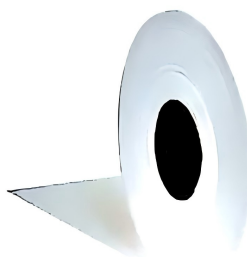

成网均匀, 拉力好
Uniform network formation

无尘性, 无静电
Dust free, no static electricity

Product Parameters 产品参数

规格: 38g/m ² ~ 100g/m ²	Specification: 38g/ m ² ~100g/ m ²
材料: 天然木浆+涤纶	Material: Natural wood pulp +polyester
外观: 平纹、网纹	Appearance: plain and mesh

Product Features 产品特点

无尘性, 使用中无纤维脱落, 保证擦拭质量;
成网均匀, 具有优良的纵横向拉力;
材料柔软, 对清洁材料表面不产生任何划痕, 不损伤物件表面;
无静电产生。

Dust free, no fiber shedding during use, no fiber debris generated, ensuring wiping quality;

The fiber combing is very uniform, with excellent longitudinal and transverse tension;

This material is soft and does not cause any scratches on the surface of the cleaning material, and does not damage the surface of the object;

No static electricity generated.

Application Area 应用领域

民用擦拭: 足浴布, 压缩毛巾, 厨房干擦等民用清洁方面;
工业擦拭: SMT、PCB擦拭布, 电子行业、精密仪器表面清洁等。

Civilian cleaning: foot bath cloth, compressed towel, kitchen dry wipe, and other civilian cleaning aspects;

Industrial wiping: SMT, PCB wiping cloth, electronic industry, precision instrument surface cleaning, etc

纺粘木浆水刺无纺布

Spunbonded wood pulp spunlaid nonwoven fabric

Product Parameters

产品参数

规格: 35g/m ² ~ 80g/m ²	Specification: 38g/m ² ~100g/m ²
材料: 天然木浆+丙纶	Material: Natural wood pulp+PP
外观: 平纹、网纹	Appearance: plain and mesh

Product Features

产品特点

使用中无纤维脱落, 不产生纤维屑, 保证擦拭质量;
布面均匀, 变形小, 具有优良的纵横向拉力;
超强的吸液及吸油能力, 比普通棉质布快多倍。

No fiber shedding during use, no fiber debris generated ensuring wiping quality;

The fiber combing is very uniform, with excellent longitudinal and transverse tension;

Super strong liquid and oil absorption ability, absorption speed much faster than ordinary cotton cloth.

Application Area

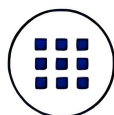

应用领域

厨房干擦等民用清洁方面

Kitchen dry cleaning and other civilian cleaning aspects

表面柔软, 不伤物件
Soft surface

布面均匀, 变形小
Uniform cloth surface

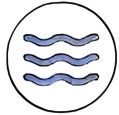

超强吸油
Super oil absorption

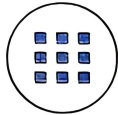

蓝色木浆复合水刺无纺布

Blue wood pulp laminated spunlace non-woven fabric

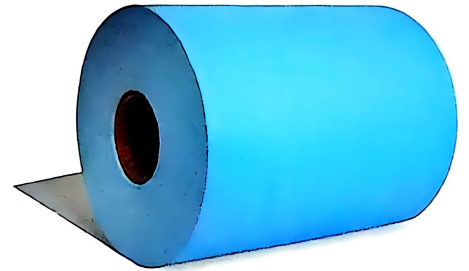

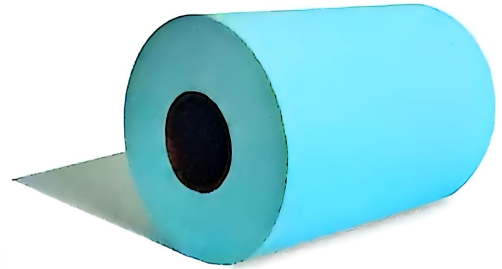

表面细腻, 不伤物件
Soft surface

成网均匀, 拉力好
Uniform network formation

超强吸油
Super oil absorption

Product Parameters

产品参数

规格: 38g/m² ~ 100g/m² Specification: 38g/m² ~ 100g/m²
材料: 天然木浆+涤纶 Material: Natural wood pulp+polyester
外观: 蓝色平纹 Appearance: Blue color plain style

Product Features

产品特点

染色均匀, 不掉色, 不褪色;
使用中无纤维脱落, 不产生纤维屑, 保证擦拭质量;
成网均匀, 具有优良的纵横向拉力;
材料柔软, 极强的吸液能力和阻尘能力, 通过施加助剂使其具有三抗功能等。

Uniform dyeing, no fading
No fiber shedding during use, no fiber debris generated, ensuring wiping quality;
The fiber combing is very uniform, with excellent longitudinal and transverse tension
The material is soft, with strong liquid absorption and dust resistance capabilities, and it has three anti functions through the application of additives.

Application Area

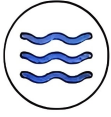

应用领域

主要用于医用, 外科手术衣, 手术帽、医用床单、枕套、台布、医用纱布 医用辅料等; 民用主要是洗浴用一次性服装等; 工业设备擦拭。

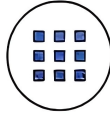

Mainly used for medical, surgical gowns, surgical hats, medical bed sheets, pillowcases, tablecloths, medical gauze, medical accessories, etc; civilian cleaning mainly includes disposable clothing for bathing, industrial equipment wiping.

白色可降解水刺无纺布

White degradable spunlace non-woven fabric

表面柔软, 不伤物件
Soft surface

成网均匀, 拉力好
Uniform network formation

超强吸液能力
Super absorption

环保可降解
Environmental

Product Features

产品特点

铺网均匀, 具有优良的纵横向拉力;
吸液后手感柔软, 亲肤性较好。
使用中无纤维脱落, 不产生纤维屑, 保证擦拭质量;
超强的洗液能力, 比普通棉质布快多倍;
环保, 生物可降解;

The fiber combing is very uniform, with excellent longitudinal and transverse tension;

After suction, the hand feels soft and has good skin affinity;

No fiber shedding during use, no fiber debris generated, ensuring wiping quality;

Super strong liquid absorption ability, absorption speed much faster than ordinary cotton cloth;

Environmentally friendly and biodegradable;

Product Parameters

产品参数

规格: $45\text{g}/\text{m}^2 \sim 80\text{g}/\text{m}^2$

材料: 粘胶、竹纤维、木浆等可降解材料

外观: 平纹及各种压花纹

Specification: $45\text{g}/\text{m}^2 - 80\text{g}/\text{m}^2$

Materials: degradable materials such as viscose, bamboo fiber, wood pulp, etc

Appearance: Plain and various embossed patterns

Application Area

应用领域

应用于高端环保湿巾等民用清洁方面

Applied to high-end environmentally friendly wipes and other civilian cleaning applications

印花布

Printed spunlace non-woven fabric

Product Features

产品特点

布面为22目网纹；
染色均匀，色彩艳丽，不掉色；
吸水吸油、较普通水刺布吸液量大，可达600%。

The fabric surface is 22 mesh pattern;
Uniform dyeing, bright colors, and no fading;
The ability to absorb water and oil is greater than ordinary spunlace nonwoven, which can reach up to 600% of ordinary spunlace nonwoven.

Product Parameters

产品参数

规格: 35g/m² ~ 75g/m²

材料: 天然木浆+涤纶

外观: 彩色 (红、黄、蓝、绿、橙) 波浪纹、鱼鳞纹、菱形纹等

Specification: 35g/m² ~ 75g/m²

Material: Natural wood pulp+polyester

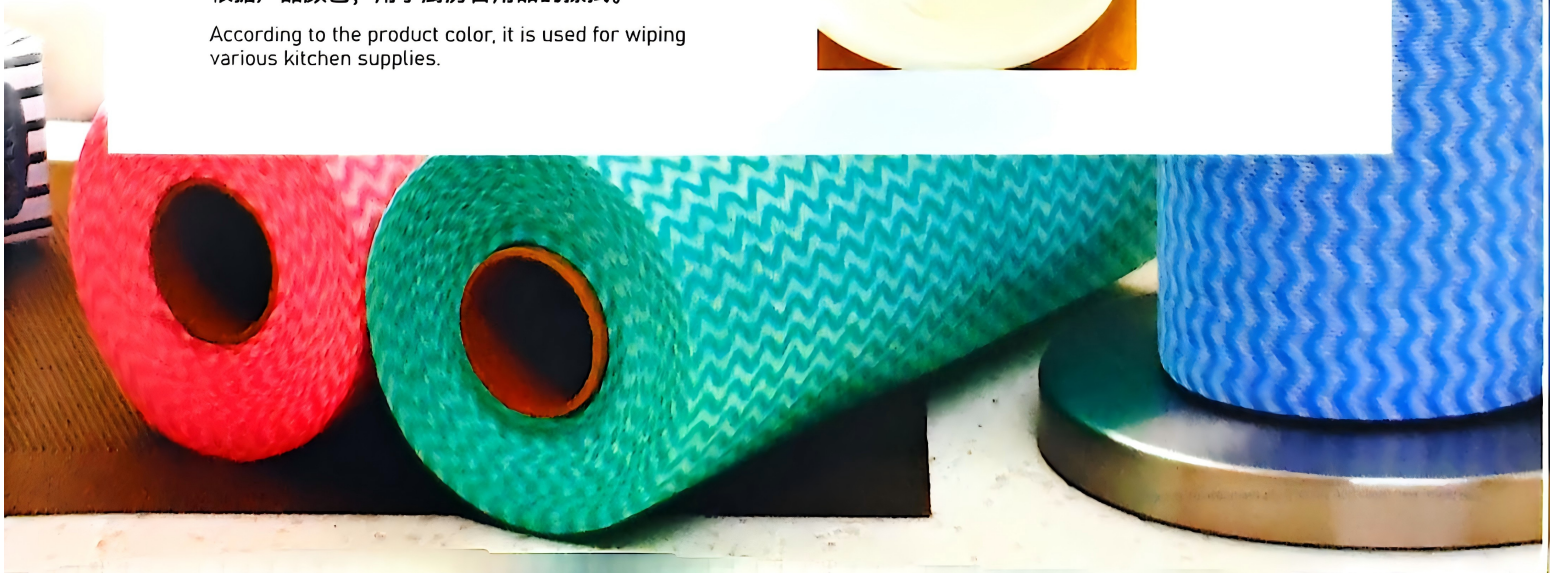

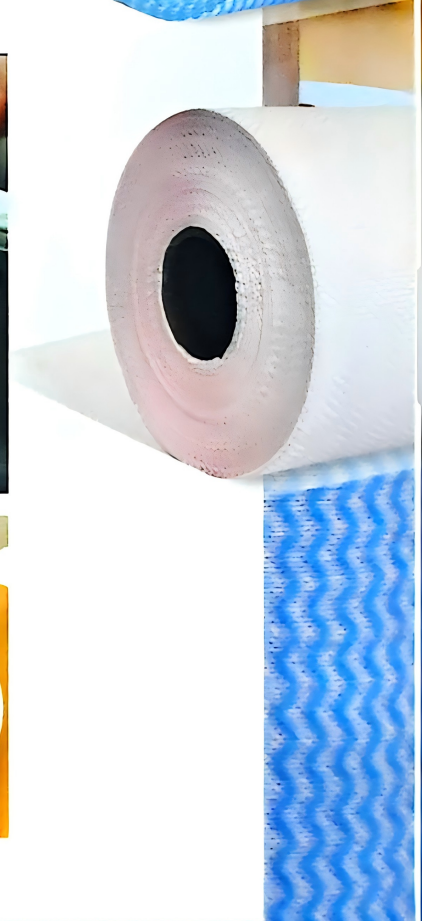

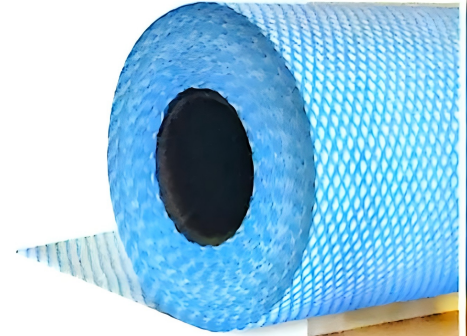

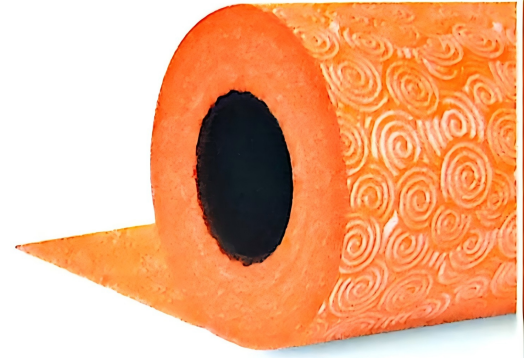

Appearance: Colorful (red, yellow, blue, green, orange) wave pattern, fish scale pattern, diamond pattern, etc

Application Area

应用领域

根据产品颜色，用于厨房各用品的擦拭。

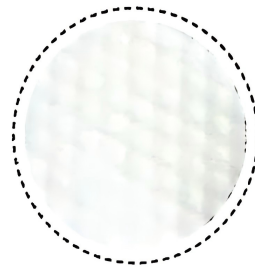

According to the product color, it is used for wiping various kitchen supplies.

珍珠纹布

Pearl pattern non-woven fabric

Product Features

产品特点

产品凹凸感强，手感柔软，
吸液量大，吸附能力强。
符合微生物检测标准（GB/T 15979-2022），
不含可迁移性荧光增白剂

The product has a strong sense of concavity and softness to the touch,
Large suction capacity and strong adsorption capacity.
Complies with microbiological testing standards (GB/T 15979-2022) and
does not contain transferable fluorescent brighteners

Product Parameters

产品参数

规格：45g/m² ~ 110g/m²
材料：涤纶、粘胶、木浆
外观：珍珠纹
Specification: 45g/m² ~ 110g/m²
Material: polyester, viscose, wood pulp
Appearance: Pearl pattern

Application Area

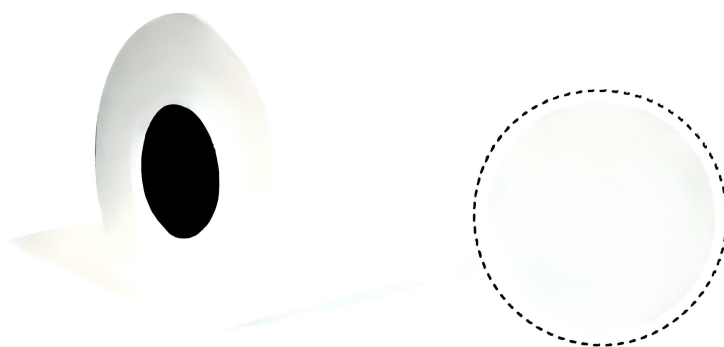

应用领域

多应用于美容美发行业，一次性卸妆巾、一次性湿巾、
一次性擦头毛巾、一次性抹布等。

It is widely used in the beauty and hair industry, such as
disposable makeup removers, disposable wipes, disposable
hair towels, disposable wipes, etc.

印刷擦拭布

Printing industrywiping
non-woven fabric

Product Features 产品特点

布面细腻光滑，使用中无纤维脱落，不产生纤维屑，高湿强，耐磨性好，保证擦拭质量；

The fabric surface is delicate and smooth, with no fiber shedding during use and no fiber debris generated. It has high humidity and strength, good wear resistance, and ensures wiping quality.

Product Parameters 产品参数

规格：65g/m² ~ 70g/m²

材料：天然木浆+涤纶

外观：平纹

Specification: 65g/m² ~ 70g/m²

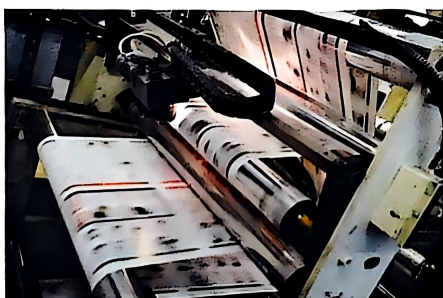

Material: Natural wood pulp+polyester

Appearance: Plain grain

Application Area 应用领域

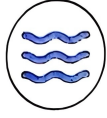

主要用于印刷行业橡皮布自动清洗。

Mainly used for automatic cleaning of rubber blanket in the printing industry.

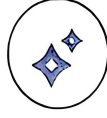

医用水刺无纺布

Medical spunlace non-woven fabric

表面柔软, 不伤物件
Soft surface

无纤维脱落
Fiber-releasing

符合微生物检测
Compliance testing

Product Features

产品特点

无杂质、蓬松度高、手感柔软、亲肤性较好；
使用中无纤维脱落，不产生纤维屑；
符合微生物检测标准（GB/T 15979-2022），
不含可迁移性荧光增白剂。

No impurities, high fluffiness, soft feel, and good skin friendliness;
No fiber shedding during use and no fiber debris generated;
Comply with microbiological testing standards (GB/T 15979-2022)
and do not contain transferable fluorescent brighteners.

Product Parameters

产品参数

规格: 45g/m² ~ 60g/m²

材料: 涤纶、粘胶、木浆

外观: 平纹

Specification: 45g/m² ~ 60g/m²

Material: polyester, viscose, wood pulp

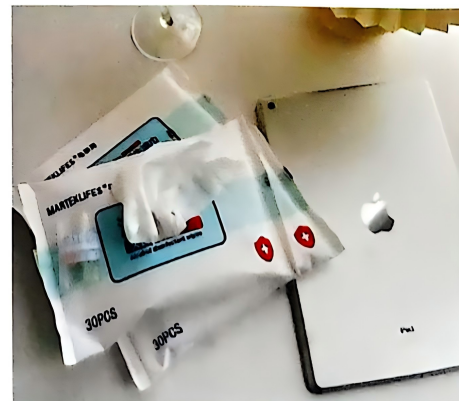

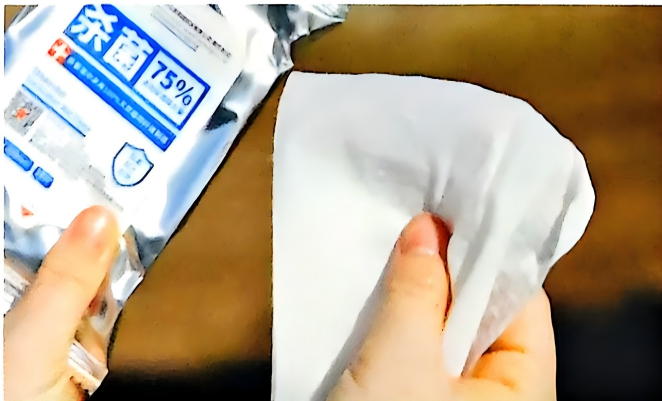

Appearance: Plain

Application Area

应用领域

下游客户出口做医用消毒湿巾，手术器械垫片等。

Downstream customers export medical disinfection wipes,
surgical instrument gaskets, etc.

压花六角纹水刺无纺布

Embossed hexagonal pattern spun-lace non-woven fabric

Product Features

产品特点

不掉色，纹路清晰;超强吸液能力;
符合食品包装相关要求。

No fading, clear lines; Super strong liquid absorption ability;
Complies with food packaging requirements.

Product Parameters

产品参数

规格: 40g/m²~110g/m²

材料: 木浆+涤纶、木浆+PP

外观: 白色, 红色或蓝色六角纹

Specification: 40g/m²~110g/m²

Material: Wood pulp+polyester, wood pulp+PP

Appearance: White, red or blue hexagonal pattern

Application Area

应用领域

在国内主要应用于厨房擦拭方面; 出口到国外多用于工业擦拭或食品包装。

Domestic: mainly used in kitchen wiping;

Abroad: mostly used for industrial wiping or food packaging.
